

Install Android Studio

Team ID	PNT2022TMID14431
Project Name	CONTAINMENT ZONE ALERTING APPLICATION

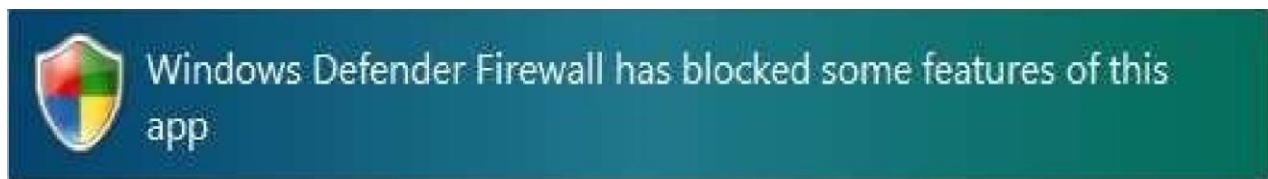

1. Open any web browser and navigate to the Android Studio download page.
2. Click Download Android Studio to start the download.
3. Double-click the downloaded file.

4. The Welcome to Android Studio Setup dialog displays. Click Finish when the installation is done to launch Android Studio.

5. You may also receive a Windows Security Alert about adb.exe. Click Allow Access, if needed, to continue the installation.

Windows Defender Firewall has blocked some features of adb.exe on all public and private networks.

Name: adb.exe

Publisher: Unknown

Path: C:\Users\stt6503\AppData\Local\Android\pdk\platform-tools\adb.exe

Allow adb.exe to communicate on these networks!

☐ Private networks, such as my home or work network

Public networks, such as those in airports and coffee shops (not recommended because these networks often have little or no security)

What are the risks of allowing an app through a firewall?

Allow access

Cancel

6. When the download and installation completes, click Finish. The window displays

Welcome to Android Studio
